Dr. Blase Medical Offices

*Tri-Pointe Plaza
Tucson, Arizona*

Intertech was challenged to create a new suite for Dr. Blase's expanding orthodontics practice.

Primary goals included a creatively designed entrance and reception lobby with business offices to relieve tension. Integration of vibrant colors and subtle textured differences welcome patients to an informal atmosphere promoting tension release. The complete suite functions beautifully and shines like a "polished penny".

The brilliant colors used in this dental office enhances the fun atmosphere specifically geared for the children treated by Dr. Blase
