## Silver Mine Subs

*Tucson, AZ*

Intertech worked with the franchisor to create a crisp, fresh image for their new submarine sandwich franchise. The Tucson location is perfectly situated in the heart of the University of Arizona, at University Boulevard and Tyndall.

Intertech handled all details of working with the City of Tucson codes to enable this restaurant to open on schedule.

A completely new façade on this older building helps grab attention for the new Silver Mine Subs business. Customer response has been excellent.
