Talented and Gifted Elementary Charter School

Tucson, Arizona

Elevation of building front

TAG elementary school is located just west of the intersection of Houghton and Speedway on Tucson's eastside. The site occupies just over nine acres of land bordered by the Tanque Verde Wash. The school itself will occupy about three acres of the property with the remaining land left natural. The city has plans for a park adjoining the school. This beautiful setting has the capacity for about 286 children. The playground and "outside classrooms" are enclosed in the central courtyard to take advantage of our outstanding climate. Intertech worked with the school over several years, helping them develop this site to its outstanding potential. The school's 17,000 square feet contains flexible 30' X 31' classrooms with natural lighting and efficient space utilization.

Intertech drove all aspects of development from the building itself, with landscaped grounds, to the classroom layout. TAG elementary school opened in the fall of 2003.

Elevation on south side, facing Speedway Blvd.
